REMIXING COMPANY CULTURE

Tailored learning for team development, putting your company first.

Engaging Cultural Experiences

Our approach to training calls upon the creative processes used to make a mix, write a song or produce a podcast.

These creative processes require the same skills needed to meet a deadline and deliver a high-quality project: Organisation, structure, planning, discipline, time management, communication skills and creativity.

The results

-  Improved teamworking skills
-  New ways of thinking and learning
-  Increased understanding of group dynamics

Facilitating Diversity

- ✓ 88% prefer a workplace of people from mixed religions
(BBC Life & Times 2016)
- ✓ 79% want to work alongside colleagues of different ethnicities
(BBC Life & Times 2016)

In an ever-evolving global market, the workplace environment is changing rapidly, with an international outlook and a greater understanding of previously unfamiliar cultures.

Our ethnically diverse team can provide culturally enriching workshops encouraging discussions and an appreciation of diverse views and experiences.

Utilising the most up-to-date creative technology, we provide innovative programmes, designed to invigorate and unite your team, using music performance within culturally progressive themes. All outcomes add up to culturally progressive workshops, programmes and events that will test decision making skills, and draw upon leadership qualities to creatively engage, train and bond your work force, with your needs in mind.

Clients include: Arts & Business NI, BBC Radio 1, Citi Group, Douglas & Grahame, Glandore, Mencap, MTV, National Citizens Service, Prince's Trust, Mencap & Remus Umo.

Return on Creativity

- ✓ 79% engage with the arts
(Arts NI 2015)
- ✓ 78% believe that expressing personal creativity, positively impacts their wellbeing in the workplace
(BKV - Feb 17th 2016)

The arts are the perfect vehicle to foster creativity. Our programme activities have allowed participants to feel valued; through the sharing exchange and progression of ideas these in turn will encourage ownership and investment into your organisation.

“Passion & Energy”

“The Prince’s Trust and Bounce Culture have been collaborating since 2013, helping young people from the most disadvantaged backgrounds realise their potential. Our partnership is a successful one for many reasons. The team have the expertise and experience in delivering creative projects and their passion and energy for their craft helps inspire anyone involved. I have every confidence Bounce Culture would have a similar impact across any learning and development programme, regardless of the sector.”

Diana Cheung – Programme Executive
Get Started Programmes, Prince’s Trust Northern Ireland

“Very Positive”

“We had approximately 100 employees in the audience. They were definitely engaged, and Kwa [Bounce Culture] brought a couple of audience members up onto the stage to keep it interactive. Adhoc feedback since then has been very positive.”

Michael Shannon - EMEA Learning and Development
Citi Group

“Motivated & Inspired”

“Working with Bounce Culture was a great experience. Our NCS Kick Start event had around 300 young people - they inspired, motivated and brought the best out of some of them. The workshops were creative and gave them the opportunity to express themselves. I look forward to seeing Kwa and Gary again!”

Sandra Makumbi – Events & Engagement Executive, NCS
National Citizens Service
