*Your
partnership*

When did the partnership begin, and why did you join forces?

Your vision

Tell us how you harnessed the power of the arts to make your work a success: What were your big objectives? What set your project apart or made it different? How did you set about achieving your goals?

Your results

Tell us about the impact and results of your work: We want to know about how your work has made a difference, be it big or small wins. Please share any statistics that help demonstrate your success.

*Your
experience*

What did the partners think about the work? A quote from each partner please:

The future

Do you see the partnership developing, and if so, what would you love to do next?

Bring it to life!

Make your project come to life for us with supporting information: This can include hyperlinks to images or online content, quotes from your attendees, copies of press reporting etc - the more lively the better!
